## FROM THE PRINCIPAL'S DESK

“If you are planning for a few years, grow crops. If you are planning for a hundred years, grow trees. And if you are planning for thousand years, educate your children. “ Education is a power to think clearly, the power to act well in world’s work and the power to appreciate life: Indeed our children are the future of this country and civilization. What we give them today would yield rich dividends in future.

During such trying times of a pandemic COVID-19, Kendriya Vidyalaya Pitampura believes in optimistic approach and says “Learn to beat the odds in life and have strength to endure them. Here, rote learning is discouraged and children get a new horizon of education. The students get a chance to come forward and speak their minds which gives them a sense of respect and dignity. With the help of online studies through different portals like google classroom , Gmeet , teachers have left no stone unturned in their efforts to continue doing the same and this newsletter is an insight into that idea.

I wish all the best to the primary department for their endeavor.

Stay safe, stay healthy!!

ANJALI THAKKAR
